

Please replace the paragraph beginning on page 134, line 5, with the following paragraph:

BP
The crystals of the present invention possess an excellent action to inhibit acetylcholinesterase and an action to improve the excretory potency of urinary bladder and are low in the toxicity, thereby being useful as drugs. Also, the crystals of the present invention are high in purity, high in quality, low in their hygroscopic property, and extremely excellent in their stability without being deteriorated upon a long-term storage under the usual conditions.

IN THE CLAIMS:

Please amend the following claim:

C' B11
cont
30. (Amended) An acetylcholinesterase inhibitor comprising the pharmaceutical composition according to claim 29.

IN THE ABSTRACT:

Please replace the original abstract with the enclosed substitute abstract.
